

CODE OF CONDUCT

The Challenger Learning Center of Maine strives to give all mission participants a positive educational experience while they are at the Center. Our belief is that all students will rise to their greatest potential and realize what a valuable life experience their visit will be.

Students represent their school at all times. Their behavior must reflect positively on their school, and most importantly, on them. Mutual respect between students and the Challenger staff is expected, along with a positive attitude and enthusiastic participation.

If a discipline problem should arise during the mission or activities, the following steps will be taken:

- 1) Warning from the Challenger Commander
- 2) Teacher Intervention
- 3) Dismissal

Chaperones:

At least one adult chaperone must accompany each crew. Up to four adult chaperones can be accommodated per mission. Teachers and chaperones must remain with their students at all times. In addition, we ask that chaperones escort students to the restroom.
